The U.S. Census Bureau reports 1,480,061 households in Oklahoma with an average household consisting of 2.58 persons. Based on U.S. Bureau of Labor Statistics the amount of estimated monthly food expenditures for home consumption per household was \$412 for FY 20. The inflation rate for home consumption food increased 0.9% for FY 21 resulting in an estimated \$416 in monthly food expenditures. Multiplying the average food expenditure by 1,480,061 households, results in \$615,705,376 in monthly expenditures for food. Multiplying \$615,705,376 by 12 (months), yields a yearly average expenditure for home food consumption in the amount of \$7,388,464,512. An adjustment for FY 21 food stamp and WIC sales which are currently exempt, in the combined amount of \$1,390,495,640 results in a total at home food expenditure amount of \$5,997,968,872 for FY 22. Application of the current 4.5% state sales tax rate results in an estimated \$269,908,599 in state sales tax revenues. Application of an inflation rate adjustment of 6.4% will result in estimated decrease of \$287,182,749 in state sales tax revenues for FY 23.
